Hi Neakeyla,

Glad to hear you are doing well!

I am available from now until 10 am and then again at 11 am. I don't have access to ADP Tracker and it's been a while since I last did, so I'm a little rusty when it comes to navigating ADP Tracker. Perhaps if you set up a Microsoft Teams meeting and share your screen with me while you are in ADP Tracker, we can work through it together to check on the OMB significance entry for this TX RH BART FIP Reproposal action and make any necessary edits. I think you would be the one who has to set up the Microsoft Teams meeting in order to share your screen. If I set up the meeting, I don't know that you'd be able to share your screen with me. Otherwise you can just call me and we can try to talk through it while you are in ADP Tracker, but since it's been a while since I had access, my memory is a bit foggy as to where to find certain things in ADP Tracker and so I may not be as much help telling you where to find things.

If you're available now, I am free until 10 am, and then again from 11 to noon.

Thanks,

Dayana Medina

Good morning Medina!!

Yes all is well! Thank you! I hope you are doing well! Please let me know when is a good time to reach out. I am still learning ADP Tracker. So if you have some tips that would be great!! Thank you!

Hi Neakeyla,

I hope you are doing well! ARSH is working on the final rule SAN 6979- "Texas RH BART FIP Reproposal," which will be signed by the Administrator and is in ADP Tracker. We are targeting June 12 for sending this up to HQs and June 30 for getting Administrator signature.

Alice Chang from OAQPS contacted me, noting that there isn't an OMB non-significant determination in ADP tracker for this final action. I think we just overlooked answering this "OMB significance determination" question when we last updated the ADP Tracker entry. Since I don't have access to ADP Tracker, would you be able to go in and make that edit in ADP Tracker? It should say "OMB Non-Significant" action. I believe there's also a box where we have to type in a justification/rationale whenever we request a non-significant determination. The justification/rationale for this should be the same as the justification/rationale we entered for the proposed rule stage. I'm sorry, I did not work on the proposed rule so I don't know what the exact justification/rationale back then was. Would you be able to look under the "NPRM" stage for this entry and copy and paste the same justification/rationale for the final rule?

Feel free to call me if you'd like to discuss or if any of this did not make sense. I know ADP Tracker is so tricky to navigate!

Thanks!

Subject: Texas FIP Action - question

Hi Dayana and Michael -

Hope your week is going well! I am a regulatory contact for OAQPS in DC, and I wanted to reach out to you both with a question regarding the TX FIP reproposal final that I know is coming from you guys to OAR next week. We are trying to do what we can to prepare front office and OP for the quick turnaround for signature anticipated for this action and the accompanying petition, but we noticed that there is not an OMB non-significant determination in ADP tracker, though the original action in 2017 was determined non-significant.

Has a non-sig request gone in for this new action? Please let me know as soon as you get a chance!

Thanks,
Alice
